The Evil King

Many years passed.

I can see Abraham's children,
their children, their children
and their children's children,
singing to the Creator God.

I can hear the children
saying, 'Creator God
please rescue us.'

I can see the evil king.
The evil king hates
everyone who is singing
to the Creator God.

I can see another man.
His name is Moses.
Moses is singing
to the Creator God.

I can see Moses looking
at a tree of fire.

I can hear the Creator God
saying from the fire,

'Moses, tell the evil king
the Creator God said,
"Let my people go free!"'

Moses has a brother.

His name is Aaron.

I can see Moses and Aaron
going to the evil king.

I can hear Moses saying
to the evil king,

'The Creator God said,
"Let my people go free!"

I can hear the evil king
saying, 'I will not let
the people who sing to
the Creator God go free.'

I can hear the Creator God saying, 'Aaron, throw down your walking stick.'

I can see Aaron throw down his walking stick.

I can see Aaron's walking stick turn into a snake.

It is hissing...hissing...hissing.

I can hear the evil king
saying to his magic men,

'Throw down your
walking sticks.'

I can see the magic men
throw down their
walking sticks.

I can see the magic men's
walking sticks turn
into snakes.

They are hissing...
hissing...hissing.

I can see the snake of Aaron
is eating...eating...eating...
the snakes of the magic men.

The Creator God
is the strongest!

I can hear Moses saying,
'The Creator God said,
"Let my people go free!"'

I can hear the evil king
saying, 'I will not let
the people who sing to
the Creator God go free.'

I can hear Moses saying
to the evil king,

'Tonight the first son
of every family will die.'

I can hear the
Creator God saying,

'Moses, tell my people
who sing to me,
to sacrifice a lamb.

Put the blood of the lamb
on the doorposts of
the houses.

When I see the blood,
my people will live.'

Everyone who sings to the Creator God put the blood of the lamb on the doorposts of their houses.

That night, the first son of every family, who does not sing to the Creator God, died.

That night the first son of every family who sings to the Creator God lived.

That night the evil king
let the people who sing
to the Creator God go free.

The Creator God is
the strongest!

Time passed.

I can hear the evil king
saying, 'I will go after
the people who sing to the
Creator God and kill them.'

Hurry, the evil king and
his army are coming...

I can see Moses and
the people who sing to
the Creator God, standing
at a big, big, big river.

Hurry, the evil king
and his army are coming...

I can hear Moses saying,
'The Creator God will
make a path through
the big, big, big river.
The Creator God will
rescue us.'

The Creator God parted
the waters of the big,
big, big river.

I can see Moses and
the people who sing to
the Creator God walking
on the path through the
big, big, big river!

I can see the evil king
and his army following
through the big, big,
big river.

I can see the water
falling on the evil king
and his army.

The evil king and his army
are dead.

I can see Moses and
the people who sing to
the Creator God are free.

The Creator God is
the strongest!

The Shepherd Boy

I can see a shepherd boy.

His name is David.

David is of the family of Abraham.

Many years passed.

David the shepherd boy is now king.

I can hear King David singing to the Creator God.

'Creator God, you are everything to me.

Creator God, you give life to me.

Creator God, you give
peace to me.

Creator God, you rescue me.

Creator God, you protect me.

Creator God, you love me.

Creator God, you are
with me, forever and
ever and ever.'

I can hear the Creator God
saying to King David,

'Through your family
I will rescue everyone
forever and ever and ever.'

The Creator God is coming.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and any other financial activity.

The second part of the document provides a detailed breakdown of the accounting cycle. It outlines the ten steps involved in the process, from identifying the accounting entity to preparing financial statements. Each step is explained in detail, with examples provided to illustrate the concepts.

The third part of the document discusses the various types of accounts used in accounting. It categorizes accounts into assets, liabilities, equity, revenue, and expense accounts. It also explains how these accounts are used to record transactions and how they are balanced at the end of each period.

The fourth part of the document discusses the importance of adjusting entries. It explains how these entries are used to ensure that the financial statements accurately reflect the economic reality of the business. Examples are provided to show how adjusting entries are recorded and how they affect the financial statements.

The fifth part of the document discusses the various methods used to value inventory. It compares the first-in, first-out (FIFO) method, the last-in, first-out (LIFO) method, and the weighted average method. It also discusses the advantages and disadvantages of each method.

The sixth part of the document discusses the importance of depreciation. It explains how depreciation is used to allocate the cost of a long-term asset over its useful life. It also discusses the various methods used to calculate depreciation, such as the straight-line method, the declining balance method, and the sum-of-the-years'-digits method.

The seventh part of the document discusses the importance of amortization. It explains how amortization is used to allocate the cost of an intangible asset over its useful life. It also discusses the various methods used to calculate amortization.

The eighth part of the document discusses the importance of the cost of goods sold (COGS) calculation. It explains how COGS is calculated and how it is used to determine the gross profit of a business. It also discusses the various methods used to calculate COGS, such as the FIFO method, the LIFO method, and the weighted average method.

The ninth part of the document discusses the importance of the ending inventory calculation. It explains how ending inventory is calculated and how it is used to determine the cost of goods sold. It also discusses the various methods used to calculate ending inventory, such as the FIFO method, the LIFO method, and the weighted average method.

The tenth part of the document discusses the importance of the financial statements. It explains how the financial statements are prepared and how they are used to provide information to management and other stakeholders. It also discusses the various types of financial statements, such as the balance sheet, the income statement, and the cash flow statement.
